

To The FCC,
Allowing people to use their cell phones in flight is absolutely UNEXCEPTABLE!!!
As a Flight Attendant I can tell you, you are opening up a can of worms that you
will regret later. There is no evidence that proves cell phones cannot effect
or interfere with aircraft systems. You will also be providing a tool for
terrorists onboard and on the ground that will assist them in executing another
9/11 or worst. There is no reason that a normal person cannot wait til the
plane is on the ground to make a phone call. Please, on behalf of the people
who do the job on a daily basis, and know better than you the repercussions this
will bring, DO NOT ALLOW CELL PHONES TO BE USED INFLIGHT, ON ANY COMMERCIAL
AIRLINER!!
Thank You,
Galen Duplantis
Flight Attendant Instructor/ American Eagle Airlines
